

Extension Lecture on Art Integrated Pedagogy in Vocational Education for the Middle Stage: 17 September 2024

The PSS Central Institute of Vocational Education (PSSCIVE), Bhopal organized a lecture on "Art Integrated Pedagogy in Vocational Education for the Middle Stage" as part of its Extension Lecture Series on September 17, 2024, at PSSCIVE, Bhopal. Dr.

Jyotsna Tiwari, Professor and Head of the Development of Education in Arts and Aesthetics at NCERT, was the keynote speaker. The event was co-chaired by Prof. V.S. Mehrotra and Prof. R.K. Pathak, with Prof. V.K. Jain serving as the event coordinator. The lecture was attended by senior faculty, academic and non-academic staff, and other key personnel from the institute. In her presentation, Dr. Tiwari underscored the importance of equipping the younger generation with a broad set of skills to meet future demands. She highlighted the role of pre-vocational exposure as outlined in the National Education Policy (NEP-2020), emphasizing its value in connecting classroom learning with real-world, practical applications. Dr. Tiwari also advocated for an education system that integrates traditional values with 21st-century knowledge, ensuring students are well-prepared for the challenges of the modern world. She stressed the importance of vocational education at the middle stage, giving students exposure to industries that offer significant growth opportunities. Additionally, she called for counseling both parents and teachers to move away from stereotypical thinking, encouraging a more open approach that allows students to explore general, vocational, and art-integrated education. This holistic approach, she concluded, is crucial for shaping well-rounded individuals capable of thriving in a rapidly changing world.
